In providing Service Delivery Coordination or Parent Aide, our goal is to provide support and assistance to clients as they work to accomplish case-specific goals, such as those outlined in written services agreements between clients and Missouri Children's Division. Parent Aide takes place in the home with the child(ren) present. EPIC may assist clients in obtaining any number of the following:

- Childcare services
- Medical/mental health services
- Additional resources needed as determined by client or caseworker
- Public assistance
- Home safety measures

- Housing
- Basic life skills

Special Concerns

Check all that apply:

- | | | |
|---|---|---|
| <input type="checkbox"/> Substance Misuse | <input type="checkbox"/> Domestic violence situation
(current or historical) | <input type="checkbox"/> Blaming, verbal abuse, threatening |
| <input type="checkbox"/> Mental health issues | <input type="checkbox"/> Weak job history if employment is required | <input type="checkbox"/> Little to no family support |

Please elaborate if any of the above were selected:

(For example: parent negative talk about case to child, blaming child for situation, specific drug use, parent currently drug testing, volatile emotions, mental health diagnosis, low functioning). An example would be a parent's history of talking negatively to the child which might lead to a referral for parenting classes and/or Nurturing Parenting sessions. Another example might be a parent's job history. If there is little work history, we might be able to assist in obtaining training.
